## WASTEWATER BASED EPIDEMIOLOGY: COVID-19 TRACKING IN BRAZIL

After one year what are the lessons learned from COVID-19 in Brazil? In this webinar we will discuss about how sewage may reveal true scale of coronavirus outbreak and how this information may be managed to define public politics. The efforts of Brazilian research groups in analyzing wastewater and SARS-CoV-2 will be discussed in this webinar. The public is invited to attend and participate with questions and comments.

Be our guest on

**16 APRIL 2021 - 10 a.m. (Brazilian Time)**
